EDUCATION

Jagannath University , Delhi NCR, Bahadurgarh

2023 - 2027

B Tech (Bachelor of Technology) Computer Science Engineering (CSE) (8.3 CGPA)

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, SQL, SQLite

Developer Tools: Git, GitHub, Docker, Postman, Vercel, Render

Core Concepts: Data Structures & Algorithms, OOPs, Authentication & Authorization, API Integration, Responsive Design

PROJECTS

AI Powered ATS Resume Analyzer(ats-analyser-project.vercel.app)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Docker, JWT, Gemini API

- Engineered a full-stack AI-powered ATS Resume Analyzer enabling secure PDF uploads, resume scoring, keyword extraction, and AI-generated optimization suggestions.
- Designed JWT-based authentication and protected API workflows for secure user sessions and resume management.
- Implemented PDF parsing and semantic keyword analysis pipeline to evaluate resume relevance against ATS standards.
- Built responsive analytics dashboards with real-time resume tracking and performance insights.
- Containerized application workflows using Docker and deployed services on Vercel and Render.

NotesApp – Full Stack Note Management Platform(notes-app-full-stack-dun.vercel.app)

Tech Stack: React.js, Node.js, Express.js, SQLite, Docker

- Developed a full-stack note management platform with authentication, category-based organization, and persistent data storage.
- Architected RESTful APIs for CRUD operations with middleware-based authentication and session handling.
- Deployed containerized frontend and backend services using Docker, Vercel, and Render.
- Implemented dynamic note organization and responsive UI workflows for improved usability.

Jobby App – Job Search Platform(jobapplicationlovat.vercel.app)

Tech Stack: React.js, REST APIs, JWT, Bootstrap

- Built a job discovery platform featuring authentication, protected routes, and dynamic job detail rendering.

- Integrated external REST APIs and implemented persistent login workflows using JWT and local storage.
- Developed reusable React components and optimized routing architecture for seamless user navigation

WORK EXPERIENCE

Full Stack Developer Intern | Uptricks Services Pvt Ltd

Jun 2025 – Aug 2025 | Pune, Maharashtra

- Contributed to full-stack web application development using React.js, Node.js, and Firebase for authentication and backend services.
- Integrated REST APIs and optimized frontend workflows to improve responsiveness and user experience.
- Collaborated on debugging, feature implementation, and deployment workflows in an agile development environment.

Full Stack Developer Intern | Unified Mentor

Jun 2025 – Sep 2025 | Remote

- Developed responsive frontend interfaces and backend integrations using React.js and Node.js.
- Implemented secure authentication workflows and API integrations for scalable user interactions.
- Participated in testing, debugging, and deployment of multiple web application modules.

CERTIFICATES & ACHIEVEMENTS

- Winner — App & Web Development Appathon Competition.
- Received Best Presentation Award on Engineering Day for technical innovation and presentation.
- Earned DevSummit Hackathon certificate for building and presenting a rapid solution under real-time development constrain

ADDITIONAL INFORMATION

- Strong interest in full-stack product engineering, AI-integrated applications, and scalable web systems.
- Actively learning advanced backend engineering concepts including caching, CI/CD workflows, and system design fundamental
