

CHANDERMANI MISHRA

Full Stack Developer | Python (Django · FastAPI) | MERN Stack

Bahadurgarh, Haryana • +91 8607653657 • chandermanimishra91@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

- Software Developer with hands-on experience building and deploying production-ready full-stack web applications using the MERN stack, Python, Django, and FastAPI.
- Skilled in backend development, RESTful APIs, authentication, database design, and scalable application architecture.
- Smart India Hackathon 2025 National Level Winner.
- Passionate about solving real-world problems through technology; seeking an internship or entry-level Software Developer role in Python or full-stack engineering.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), Python
- Frontend: HTML5, CSS3, React.js, TailwindCSS
- Backend: Node.js, Express.js, Django, .NET, RESTful APIs
- Databases: MongoDB, MySQL
- Tools & Cloud: Git, GitHub, Docker, AWS

ACHIEVEMENTS & AWARDS

- Smart India Hackathon (SIH) 2025 — National Level Winner, Ministry of Education, Govt. of India (Dec 2025); competed against 1,000+ teams nationwide.
- 150+ LeetCode problems solved across Easy, Medium, and Hard difficulty, with focus on Arrays, Trees, Graphs, and Dynamic Programming.
- 2 production-deployed projects, including a live WebRTC platform (LingoLive) and a Netlify-hosted clinic management system.

EXPERIENCE

Software Developer Intern — Beritrave Technology Pvt Ltd

Jun 11, 2026 – Present

- Building "Aana Jana," a ride-booking platform (Uber-style) using React.js and FastAPI.
- Developing frontend booking flows and backend APIs for real-time ride requests and matching.

Full Stack Developer Intern — Unified Mentor

Jun 2025 – Sep 2025

Remote

- Built 5+ responsive web apps with React.js, cutting page load time by 30% through component optimisation.
- Created a reusable 20+ component React library, reducing UI development time by 35%.
- Built RESTful services (Node.js/Express) integrating MongoDB and Firebase for real-time data.

PROJECTS

AI-Powered UGC–AICTE Compliance Verification System | SIH 2025 Winning Project

Tech Stack: React.js, Node.js, Express.js, MongoDB, Python, OpenCV, YOLO, Microservices

- Built an AI-powered compliance platform across 4 portals (Institution, UGC, AICTE, Super Admin), eliminating manual review for 80%+ of submissions.
- Designed microservices-based RESTful APIs (Node.js/Express) managing 10,000+ compliance records in MongoDB with real-time tracking.
- Automated document inspection (95%+ accuracy) using Python, OpenCV, and YOLO.
- Built real-time analytics dashboards for compliance insights across all portals.

LingoLive — Real-Time Voice/Video Conversation Platform <https://lingolive.onrender.com>

Tech Stack: *React.js, Node.js, Express.js, WebRTC, WebSocket, MongoDB*

- Built a peer-to-peer platform (WebRTC + WebSocket) supporting 100+ concurrent sessions at sub-150ms latency.
- Developed a custom Node.js signalling server, cutting connection setup time by 40% vs relay-based alternatives.
- Used MongoDB to persist session state and call history reliably.

Clinic Management System <https://cliniccare124501.netlify.app>

Tech Stack: *React.js, TailwindCSS, Redux, Firebase*

- Built a full-stack clinic platform for patient records, appointments, and billing with role-based access for 2 user roles.
- Used Redux and Firebase for global state and real-time sync across concurrent users.

EDUCATION

B.Tech in Computer Science Engineering — Jagannath University, Haryana

Expected May 2027

Senior Secondary (HBSE) — A.F.C Senior Sec. School, Sampla, Rohtak

2023
