CAREER OBJECTIVE

Backend Developer skilled in building scalable server-side applications and RESTful APIs using Node.js, Express.js, and MongoDB. Experienced in real-time systems, authentication, and database-driven applications, with a strong interest in backend architecture and problem-solving

EXPERIENCE

Full Stack Developer, 06/2025 – 09/2025

Unified Mentor – Remote

- Designed and developed responsive web applications using HTML, CSS, JavaScript, and React.js
- Built dynamic user interfaces with reusable React components and efficient state management
- Implemented backend functionality using Node.js, Express.js, and integrated databases such as MongoDB and Firebase

PROJECTS

❖ **AI-Powered UGC–AICTE Compliance Verification System**

- Developed an AI-powered document verification system to automate UGC–AICTE compliance checking for educational institutions.
- Tools Used: React.js, TailwindCSS, Node.js, Express.js, MongoDB

❖ **LingoLive – Real-Time Voice/Video Conversation System**

- Built a real-time communication platform with messaging, voice/video calling, and live chat using WebSockets.
- Tools Used: React.js, Node.js, Express.js, WebSocket, WebRTC MongoDB

❖ **Clinic Management System**

- Developed a full-stack clinic management system to manage patient records, appointments, and billing operations with secure role-based access.
- Tools Used: React.js, TailwindCSS, Redux, Firebase

EDUCATION

B. Tech: Computer Science Engineering, 2027

Jagannath University - Haryana, India

Senior Secondary School, HBSE, 2023

A.F.C Senior Sec. School – Sampla, Rohtak

SKILLS

- | | |
|---|--|
| • Programming: JavaScript, Python | • Databases: MongoDB, SQL |
| • Frontend Development: HTML, CSS, TailwindCSS, React.js, Angular.js | • DevOps & Cloud: Docker, Kubernetes, AWS |
| • Backend Development: Node.js, Express.js | |

CERTIFICATIONS

- SMART INDIA HACKATHON WINNER 2025
